

BAYWOOD
ENERGY RESOURCES INC

WHO WE ARE

Baywood Energy Resources Inc is an Energy EPC Service and Logistics provider, covering a wide spectrum of services within the Energy corridor operating in Guyana as fully incorporated and local Guyanese company. It is affiliated to The Baywood Group with experience spanning over three decades.

The experience of the group in the various spheres of the Energy industry is accentuated by it's verifiable track records in areas of Design Engineering through to planning, procurement and construction including and not limited to operations, maintenance and logistics support for both Onshore and Offshore operations within the upstream Sector of the industry.

As a local Guyanese company that is compliant with all local requirements, we are focused on providing such services as the group is noted for especially, in support of the local demands.

We have established a home grown In-Country Engineering Design support base for development of man power need of the local industry including establishment of purpose built facility to cater for fabrication, construction services and warehousing facility with laid down areas for open storage.
